

Asbestos Environmental Technician – Paid training, advancement opportunities

Sick of sitting in an office or working a dead-end job? Enjoy visiting different job sites and learning new things? Come try something new! We provide all the training you need to build a career in this secure industry.

Our Asbestos Environmental Technicians gain hands on experience performing environmental monitoring on projects in Western New York and the surrounding areas while obtaining multiple paid certifications in the process. This includes training on how to handle air pumps, sample for asbestos and the other hazardous materials you may encounter while working on active construction sites.

While a construction or environmental background is helpful, we provide you all the training you need to get the job done and pay for the New York State Certifications. We offer a friendly, employee centric culture where we care about our staff, the world and the work we do. Here, you'll work closely with company leaders who have years of experience and a wealth of knowledge to share.

Why Should You Apply?

- Starting pay of \$19.00/hr. with the ability to increase your pay rate as your skills grow
- Paid training and certifications
- Competitive benefits package and paid time off
- Employer 401k contribution without required employee contribution
- Regular reviews and feedback
- Ongoing training and development to support your career path
- Company events and volunteer opportunities

The Qualifications for our ideal candidate

- You're a born detective: inquisitive and dependable
- You have a passion for the built environment
- You value being entrusted to work on job sites independently
- You have the ability and initiative to self-pace and manage daily workload
- You have excellent communication and problem-solving skills and are to adapt quickly to changing situations

The Requirements:

- Ability to perform field work independently at various work site locations, work flexible hours and travel within Upstate New York
- Comfortable working on active construction sites with asbestos and other hazardous materials
- Reliable transportation with proof of required insurance and valid driver's license
- Ability to pass MVR (motor vehicle record) check, OSHA-required physical, and drug test
- Ability to lift up to 50 lbs., work at heights, in small spaces and other adverse conditions
