

Environmental Technician Interns – Great experience, paid certifications, completion bonus

Come work as an Environmental Technician Intern at a company that cares as much about our employees as we do our clients! We offer a friendly, employee centric culture where we care about our staff, the world and the work we do.

Our internship positions provide hands on experience performing environmental monitoring on projects in Western New York and the surrounding areas, with the ability obtain multiple paid certifications in the process. Here, you'll work closely with company leaders who have years of experience and a wealth of knowledge to share.

These roles provide a great opportunity to try out the environmental consulting field and gain first-hand experience in the industry, which make our former interns great candidates when full-time positions become available. See below to learn more.

About Us:

Sienna is an award-winning, multi-disciplinary environmental, health and safety, and construction services consulting firm and laboratory, with a long track record of successfully completed projects throughout the Northeast.

Sienna's highly experienced staff perform a wide range of services including hazardous materials investigation; industrial hygiene sampling; health and safety plans and programming; specification writing; CADD drafting; and laboratory analysis. Sienna also oversees and monitors environmental, renovation and demolition projects for contract and EH+S compliance to specifications and regulations.

Qualifications:

While a construction or environmental background is desirable, we provide you all the training you need to get the job done. In addition to on-the-job training with our experienced team of professionals, we also pay for the initial EPA/NYS Project Monitoring and Air Sampling Classes, New York State Certifications and OSHA 10-hour class.

The qualifications for our ideal candidate include:

- Pursing or completed a degree in environmental science, environmental studies, construction management or a related field

- Experience with or knowledge of construction, asbestos, hazardous materials, and sampling methodology is a plus
- A positive self-starter with a strong work ethic who enjoys working independently
- Excellent communication and problem-solving skills
- Able to adapt quickly to changing situations

The Requirements:

- Ability to perform field work independently at various work site locations, work flexible hours and travel within Upstate New York
- Reliable transportation with proof of required insurance and valid driver's license
- Ability to pass MVR (motor vehicle record) check, OSHA-required physical, and drug test
- Ability to lift up to 50 lbs., work at heights, in small spaces and other adverse conditions

Why Should You Apply?

- Work for a company that cares about you and your ideas
- Gain great hands-on experience working on project sites
- Paid training and certifications
- \$250 bonus on August 15th or last agreed upon date of work
