

## **Laboratory Analyst**

Sienna Environmental Technologies is seeking a part-time Laboratory Analyst for our in-house lab. The role is based out of our Buffalo office and is approximately 20 hours per week.

The daily functions of the position include, sample log-in, sample preparation, sample analysis, quality control, compilation of laboratory reports and submission of reports to in-house personnel and clients.

We are centrally located in the Elmwood Village in Buffalo with ample free parking and public transit access. Sienna is a woman and minority-owned firm and equal opportunity employer. In keeping with our commitment, Sienna encourages women, minorities, and military veterans to apply. We're a team of engaging, intelligent, and energized folks who are committed to making an impact in the world. We offer a friendly, employee centric culture and are passionate about our staff, their lives, happiness and personal growth.

### **The Responsibilities:**

- Perform sample preparation and laboratory analysis by PCM (Phase Contrast Microscopy)
- Compile, file, redirect and transmit laboratory reports to clients

### **The Requirements:**

- Previous educational or professional laboratory experience with binocular microscopes
- Verification of completion of 40- hour NIOSH 582 training or comprehensive training will be provided
- Strong work ethic and high level of integrity; excellent communication and problem-solving skills
- Ability and initiative to self-pace and manage daily workload while adapting quickly to changing situations
- Ability to pass MVR (motor vehicle record) check and drug test

### **Interested?**
